

Having a baby hospitalized in a Neonatal Intensive Care Unit can be an overwhelming experience for all members of a family. NICU Helping Hands, through Project NICU, strives to be a source of reliable information, support, and comfort to all families.

NICU Helping Hands' Project NICU is an extensive family support program that can be utilized by staff at your hospital or organization. Our materials address the emotional and educational needs of all families who have experienced a delivery that resulted in a NICU admission – whether premature or full term.

Project NICU materials make it possible for your staff to meet with a family privately to discuss a specific topic or lead a support group session with multiple families. Your annual license provides access to:

- Project NICU materials in both English and Spanish
- Instant, unlimited print access, allowing you to provide support to families whenever needed
- Phone support for your staff, 7 days a week
- Customized training programs for your staff
- Option to co-brand printed materials with your organization or hospital logo

For more information about licensing Project NICU please contact:
